Hybrid Learning Strategies: Complexity vs Content Change

Session Abstract

Business & Digital Transformation Advancing Workforce Readiness:

Is your Team Prepared for the future?

Executives & Thought Leaders share insights & strategies to improve team learning & new models for talent performance

Hybrid Learning Strategies: Complexity vs Content Change

Highlights from the Discussion

1. The strategy of enhancing and enabling individuals to engage in lifelong learning journey's offers hope in an environment of complexity and change.
2. [Tesler's Law](#) is relevant as a way to remind us to identify [where](#) (not "if") complexities exists in learning solutions.
3. Scalability requires more effort up front to design with implementation in mind
4. [Hybrid Learning strategies](#) always involve tradeoffs for one or more stakeholders, whether specific audience segments, designers, facilitators, and/or the infrastructure supports required to deliver the solution
